

Downloads per episode of The Jodcast

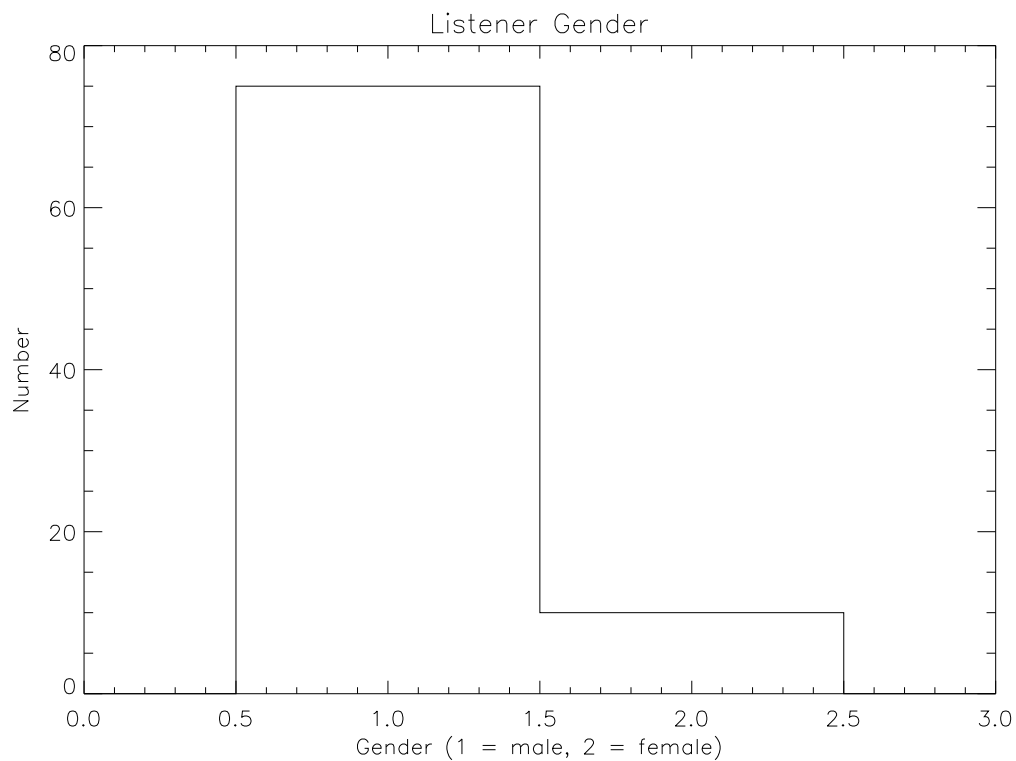

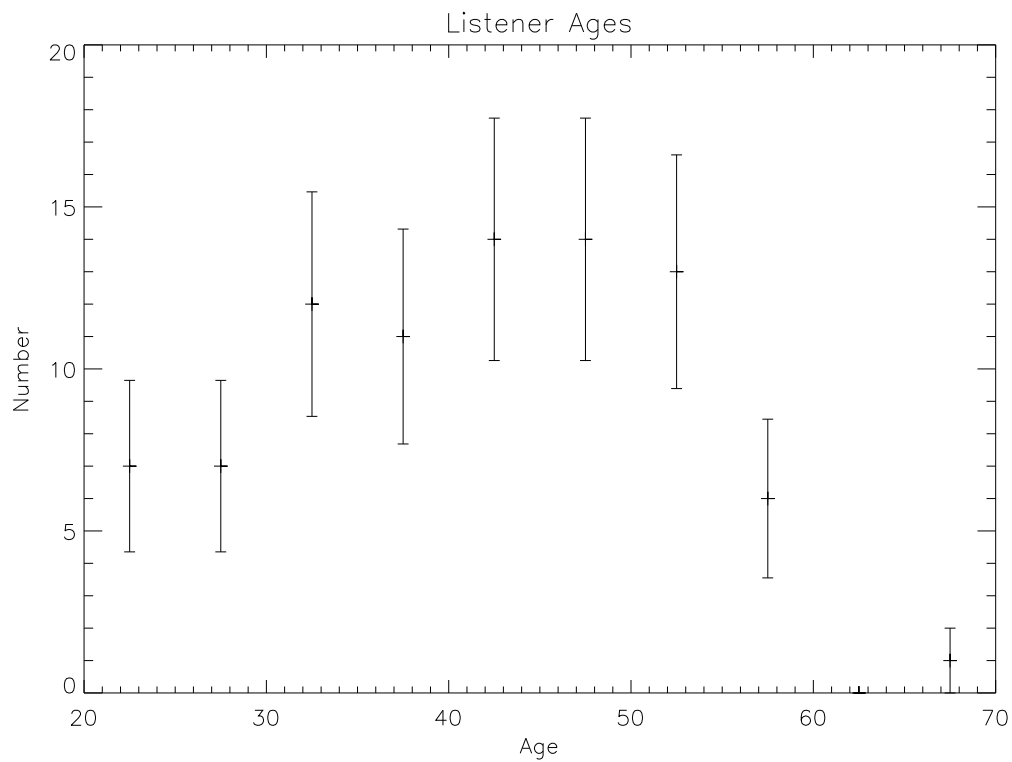

Below is a plot showing the cumulative number of downloads of each episode of The Jodcast over a calendar month. Three curves are shown, for May 2006 (stars), January 2007 (plus-symbols) and September 2007 (solid line).

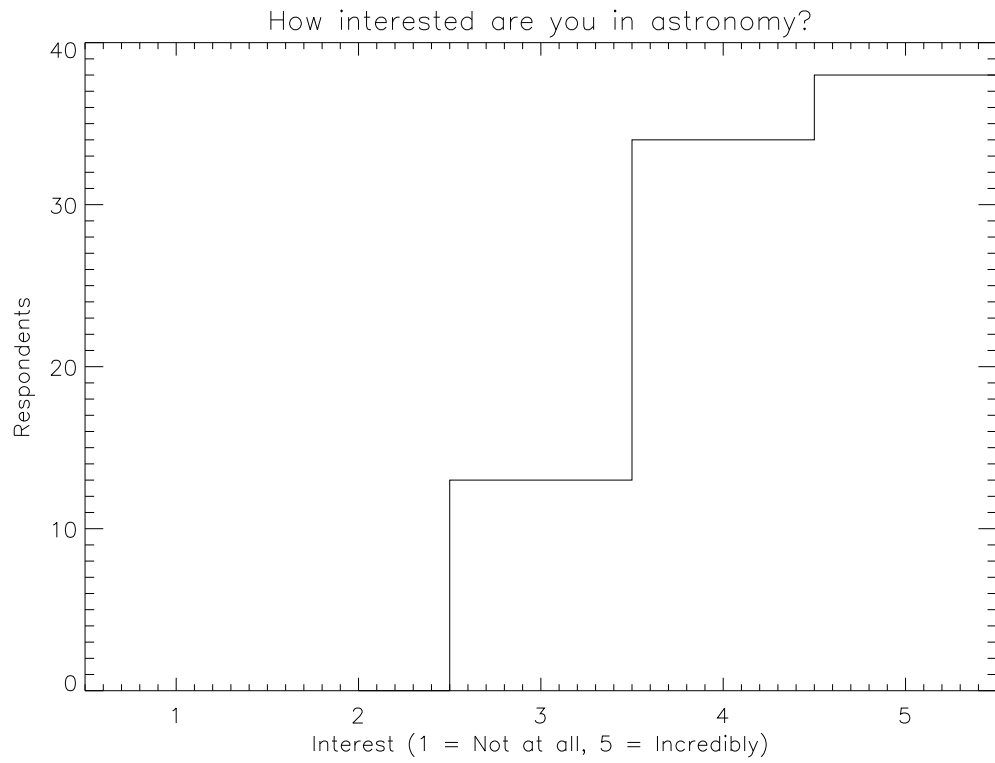

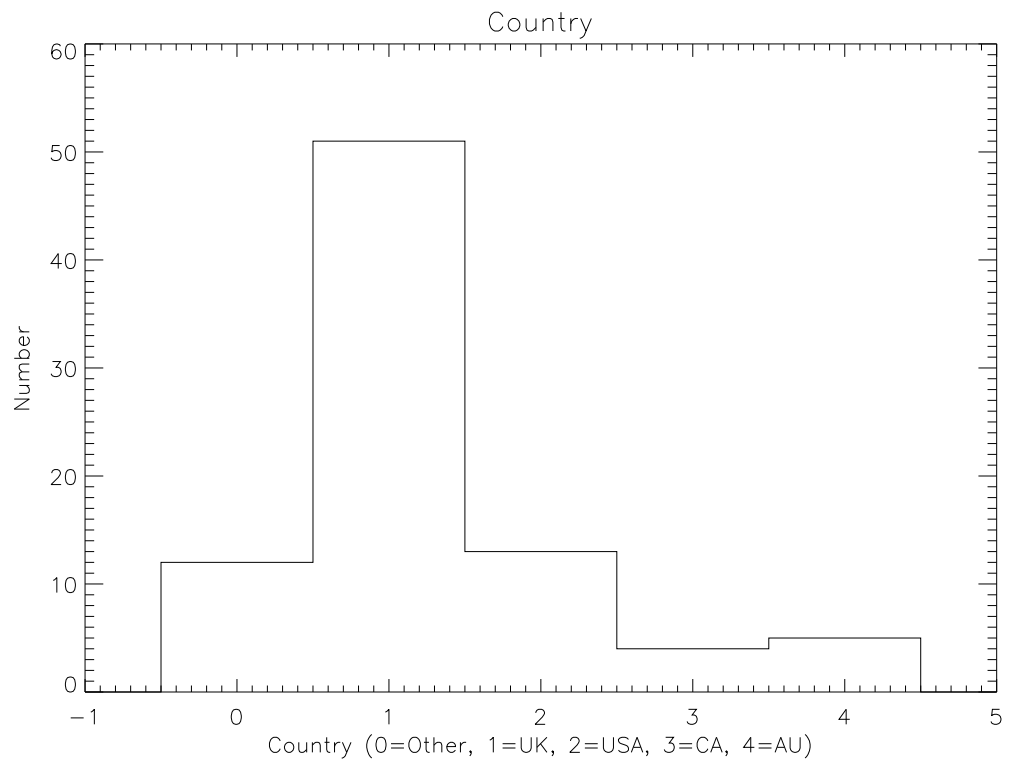

This plot shows how the audience size for The Jodcast has increased about 50% since January 2007, and about 400% since May 2006.

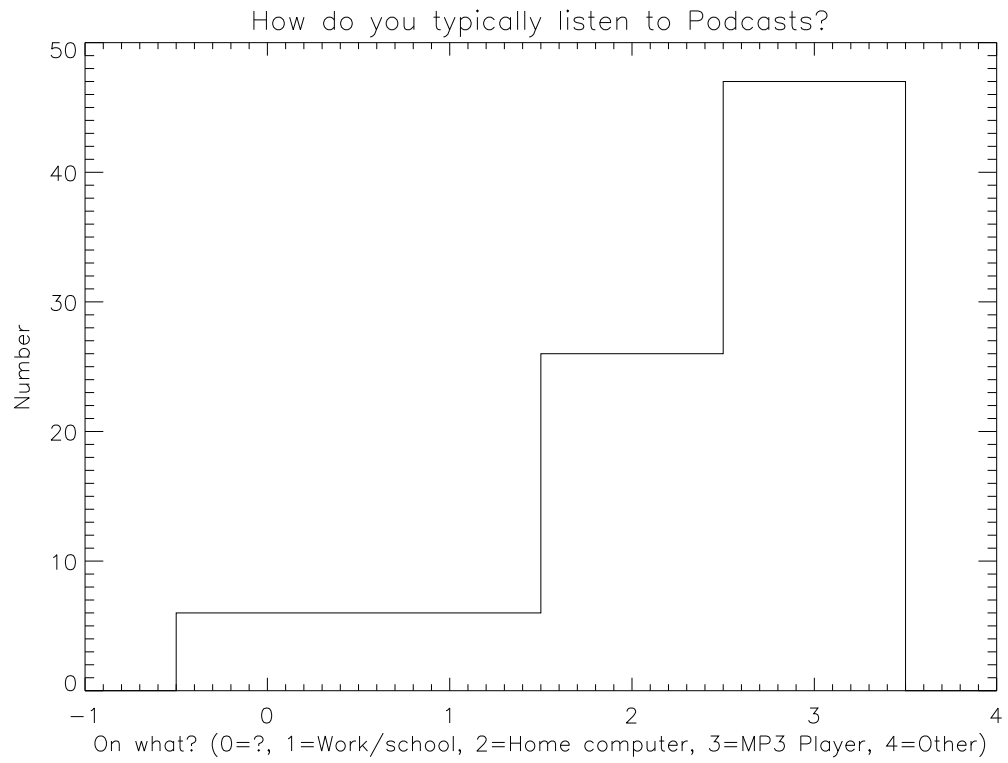

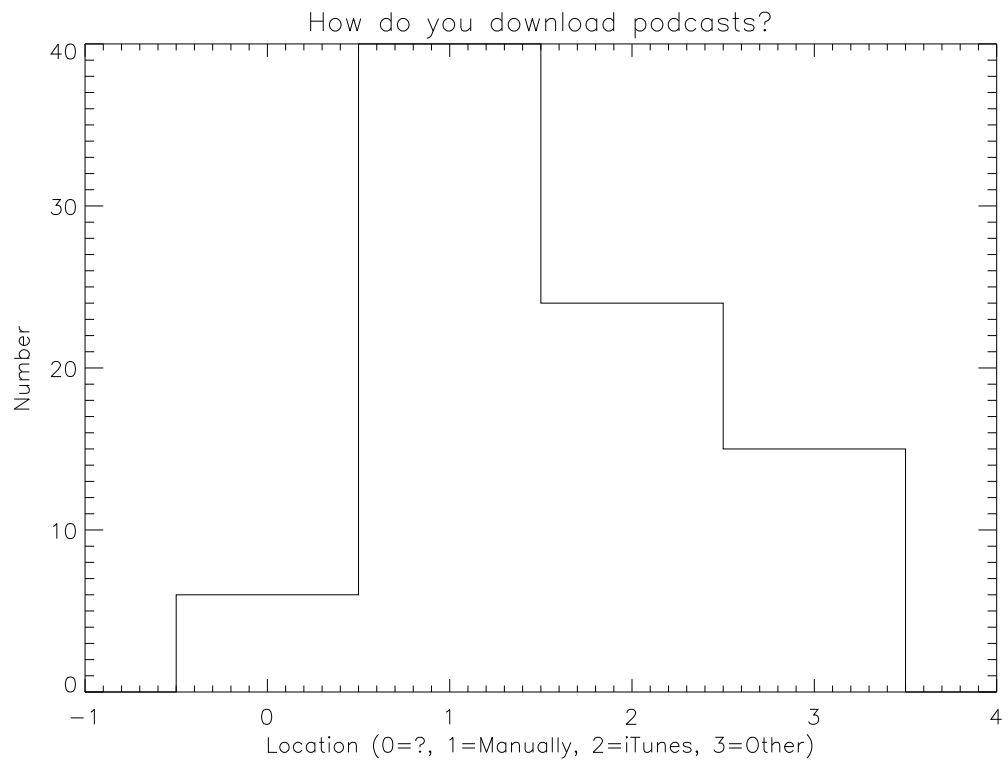

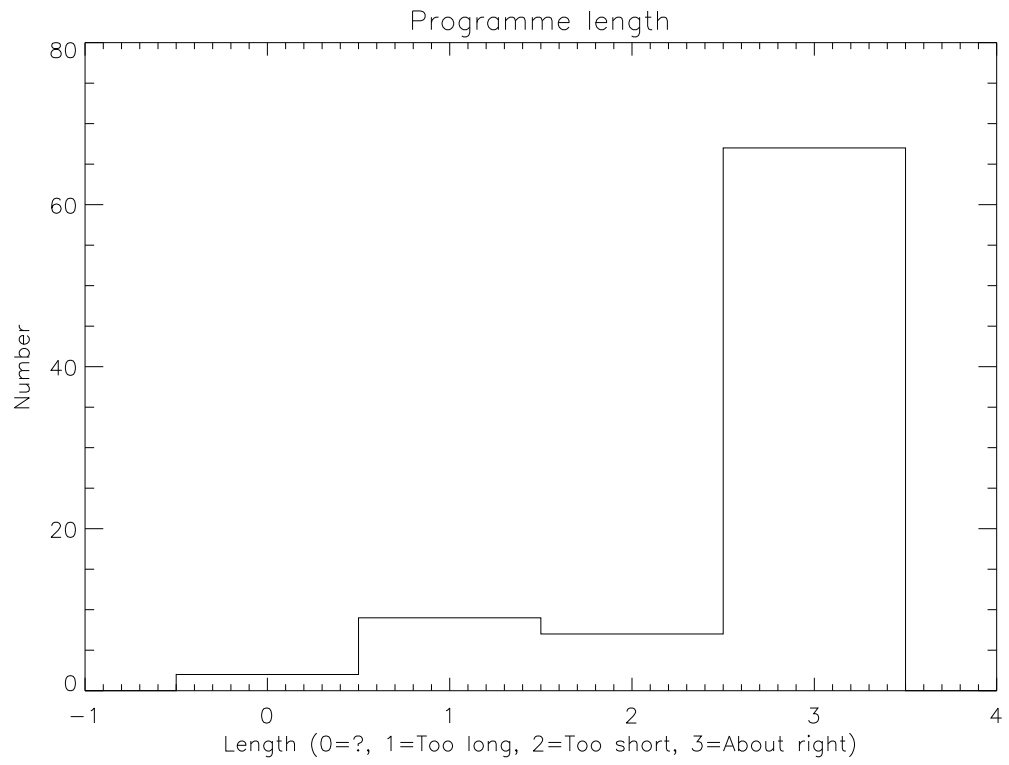

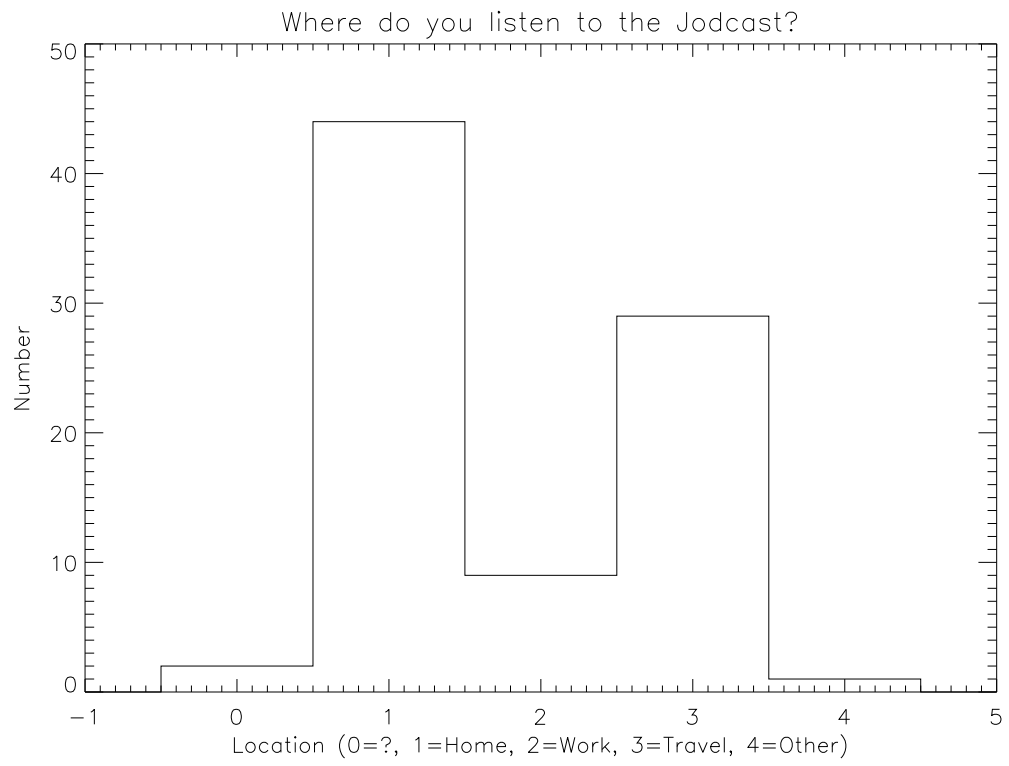

Responses to the First Jodcast survey

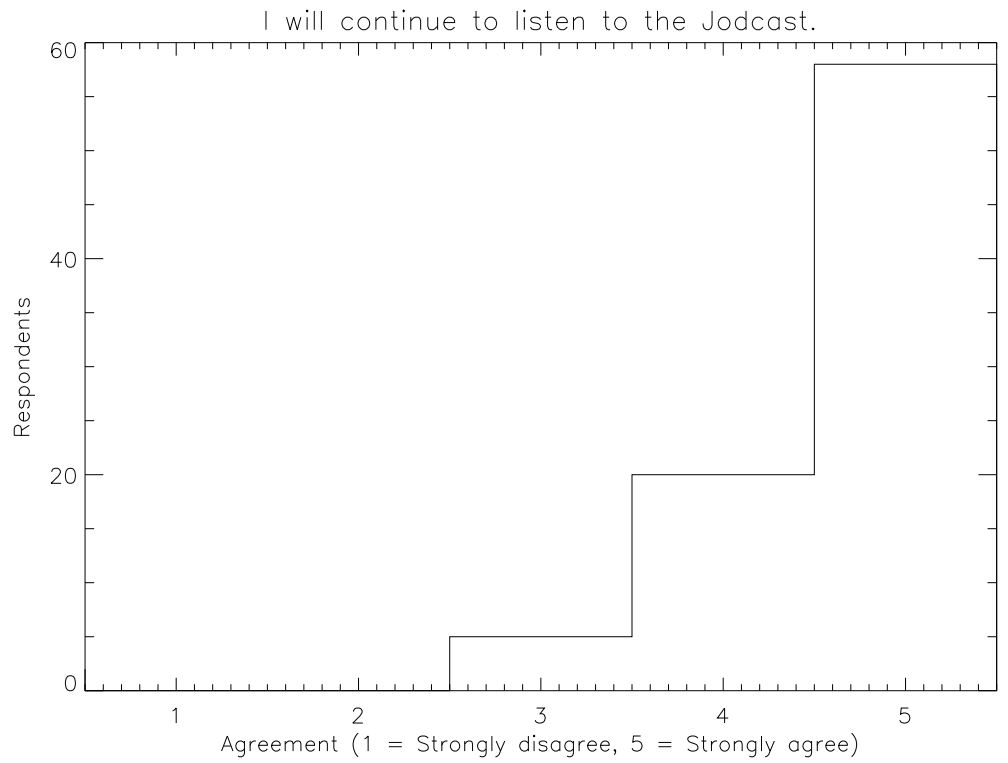

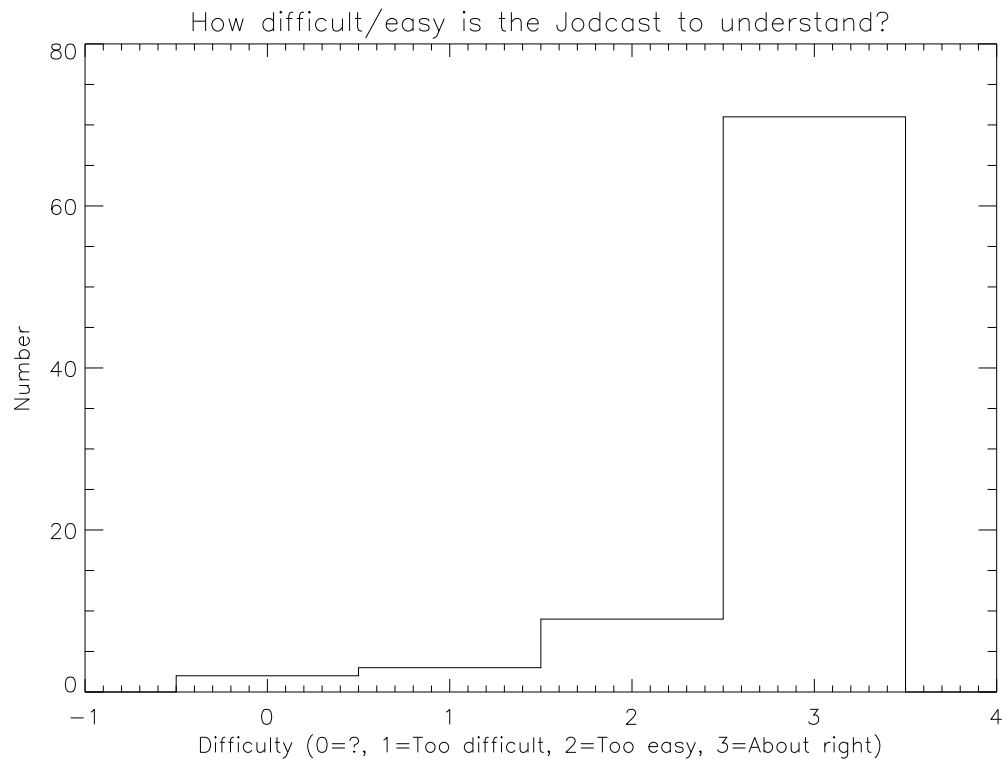

The following are histogram plots showing the listener responses to the survey conducted during March/April 2007.

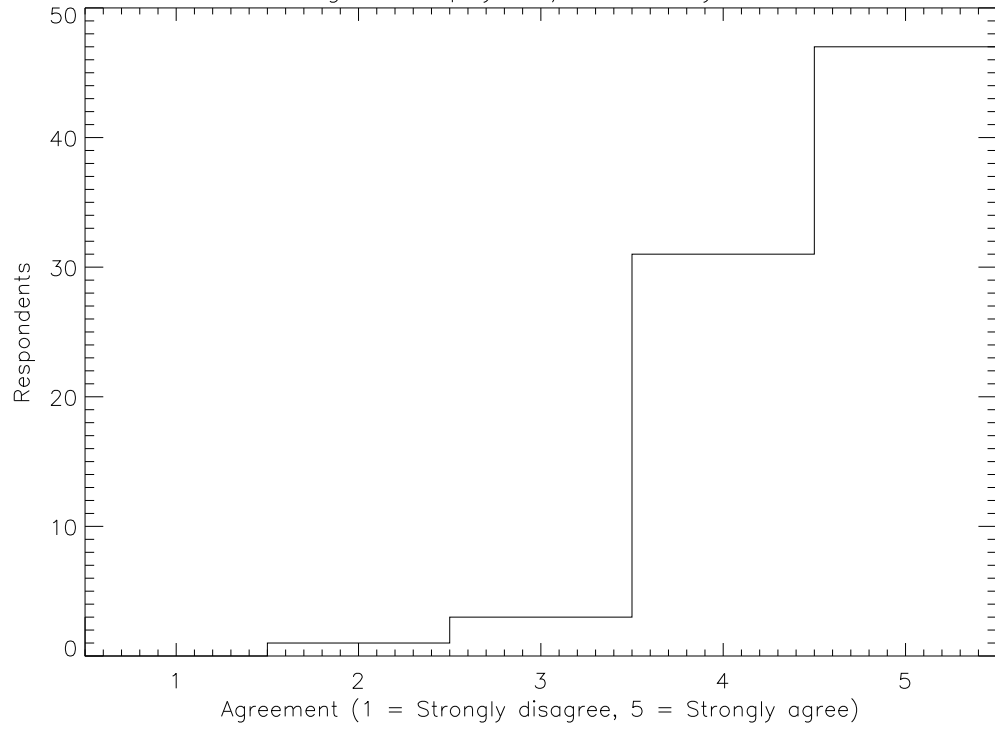

I have learnt something about physics/astronomy that was worth learning.

Listening to the Jodcast has increased my interest in astronomy.
